The **new** benchmark in electric golf trolleys

Five years in the making and the culmination of over 60 years' experience in the electric golf trolley business.

The ground-breaking VISION trolley combines aerospace technology and a streamline/sleek design to bring you one of the smallest most powerful trolleys available on the market today.

Folded Dimensions:

595mmW x 285mmH x 865mm L

Weight 9kg without battery

"The Golfstream Vision is the simplest golf trolley we have ever used"

Charlie Lemay,
Golf Magic Assistant
Digital Editor

Function and reliability in a sleek, stylish design

- Stylish design anti-clog front wheel housing prevents mud build up
- Easy to operate one click, single fold mechanism
- Anti bag-twist design – *Unlike other manufacturers your bag is held in place at two points on the main frame and not on the central spine.*
- Long lasting soft, super slick, low profile tyres provide traction in all conditions.

Space saving fold down size

The new Vision golf trolley has a fold down size that is probably the smallest in the golf industry, taking up less space both at home and in the boot of your car. It's unique design means that it is one of the lightest golf trolleys on the market.

THE DIFFERENCE IS **CLEAR** TO SEE

GOLF | **STREAM** **VISION**
